MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Army-Wide Operational Security (OPSEC) Review of Websites

1. Reference, HQDA MSG 28 22372 Feb 03 Army-wide Website OPSEC Review (ENCL).
2. An HQDA mandate has been received via email for commanders at all levels to ensure their Websites protect the Army's essential elements of friendly information (EEFI). All Websites must be OPSEC compliant. All web pages must have had an OPSEC review according to AR 530-1 prior to publishing to the World Wide Web.
3. The 1st Information Operations Command is currently checking all Army Websites for vulnerabilities and is reporting all findings to the G-3. Your review should eliminate any undesirable findings.
4. All organizational web pages must be reviewed for operational security by 25 Mar 03. If your pages have not previously had a formal OPSEC review, complete one, staff thru SD and PAO, and forward a copy of the completed document to IO. If your Web pages have had a formal OPSEC review, complete an additional review, according to the below checklist and forward a copy of your original OPSEC review to IO.
5. For additional information on Website OPSEC reviews, go to the Army Knowledge Online (AKO). An OPSEC review checklist for unit commanders, public affair offices (PAOs), and Webmasters is located at www.army.mil/wemasters/opsecreviewchecklist. Webserver administration policy is located at www.defenselink.mil/webmasters/. Perform a review of your web pages according to the checklist. When you are satisfied that you meet all requirements, send a copy of your current OPSEC review to IO.
6. Information Operations Directorate Webmaster will remove links from the WSMR Website to organizational web pages that have not completed a review of their web pages and forwarded a copy of their OPSEC review to IO by 25 Mar 03. Send your OPSEC review to Phil Doubleman at doublemw@wsmr.army.mil or through distribution to CSTE-DTC-WS-IO-MP, ATTN: Phil Doubleman. Reminder, any changes that may affect the operational security requirements of the Website required a new OPSEC review.
